SUMMARY:

Mr. King provided an overview of the CPSC, its history, mission, organization, and the existing regulations. He indicated how CPSC selects and approaches projects, how CPSC accumulates accident data and conducts investigations. He also provided a brief summary of the methods used by CPSC to reduce injuries and deaths including voluntary and mandatory standards, information/education, and recalls/compliance.

Mr. Schoem provided a summary of the CPSC compliance activities and covered the responsibilities of manufacturers under the CPSA.

Messrs. King and Schoem responded to questions with regard to their area of specialty within CPSC.
